THE GU CHRISTIAN SERVICE PROGRAM

This is one of 18 courses (subjects) that make up the Christian Service Program. The symbol at the left is a guide for order of study in the series, which is divided into three units of six courses each.

Understanding the Bible is Course 2 in Unit III. You will benefit by studying the courses in the proper order.

Study materials in the Christian Service Program have been prepared in a self-teaching format especially for Christian workers. These courses provide a student with Bible knowledge and skills needed for practical Christian service. You may study this course in order to receive a certificate, or for personal enrichment.

ATTENTION

Please read the course introduction very carefully. It is important that you follow these instructions so you can achieve the goals of the course, and be prepared for the student reports.

Address all correspondence concerning the course to your GU instructor at the address stamped on the copyright page of this study guide.

Course Introduction

You are about to begin a very important activity: the careful, methodical study of the Bible. This course is divided into three parts, or units, of study. The first part will introduce you to principles, terminology, and relationships that are essential to all effective methods of Bible study. Then, a series of lessons will emphasize a thorough presentation of the synthetic or whole-book method of study. The last part of the course presents other important methods of Bible study. While much in the course is necessarily intellectual comment on how to study, constant emphasis is placed on the student's spiritual improvement as the main purpose of the course.

To understand the Bible, you must do more than merely read it. Reading it has value but often fails to make clear the relationship between different parts of the Bible. When you study the Bible with an organized plan in mind, you write down important findings that help you to see the unity that is present throughout the Scriptures. Furthermore, such study helps you to remember God's warnings and obey His commands. Obedience to God is the result of personal application of devotional Bible study. This application will build up your faith in Christ and strengthen your spiritual life.

You may find it difficult to do the kind of study that this course requires, but your reward for doing it will be great. The Holy Spirit is with you wherever you are. As you ask Him to help you, He will give you insight. May the Word of God dwell in you richly as you study this course!

Course Description

Understanding the Bible is a course of study that interacts with you on methods of carefully organized Bible study. You will learn effective techniques for general study, then you will apply them to the Bible by means of study questions. Many of the answers given in the textbook to these questions are offered only as suggestions

to guide you to your own answers. This study emphasizes the value of skilled procedures of observation and interpretation as aids to understanding the Bible and accomplishing the main purpose of the course. This purpose is to help you apply Bible truth to your own life and share it with others.

Course Objectives

When you finish this course you should be able to:

1. Describe the basic principles of Bible interpretation.
2. Describe the four methods of Bible study that are taught in this course.
3. Use these basic principles of interpretation and the four methods of Bible study in your own study of the Word.
4. Interpret meaningful questions as you study the Bible and lead others in Bible study.
5. Value the Bible as authoritative for all Christian belief and all Christian living.
6. Be sensitive to your need of the Holy Spirit to help you study and share Scripture.
7. Feel more confident in sharing Scripture with others.

Textbooks

You will use *Understanding The Bible: An Independent-Study Textbook* by Dorothy Johns as both the textbook and study guide for the course. The Bible is the only other textbook required.

Study Time

How much time you actually need to study each lesson depends in part on your knowledge of the subject and the strength of your study skills before you begin the course. The time you spend also depends on the extent to which you follow directions and develop skills necessary for independent study. Plan your study schedule so that you spend enough time to reach the objectives stated by the author of the course and your personal objectives as well.

Lesson Organization and Study Pattern

Each lesson includes: 1) lesson title, 2) opening statement, 3) lesson outline, 4) lesson objectives, 5) learning activities, 6) key words, 7) lesson development including study questions, 8) self-test (at the end of the lesson development), 9) answers to the study questions. Answers to each self-test are at the back of your textbook before the unit student reports.

The lesson outline and objectives will give you an overview of the subject, help you to focus your attention on the most important points as you study, and tell you what you should learn.

Most of the study questions in the lesson development can be answered in spaces provided in this study guide. Longer answers should be written in a notebook. As you write the answers in your notebook, be sure to record the number and title of the lesson. This will help you in your review for the unit student report.

Do not look ahead at the answers until you have given your answer. If you give your own answers, you will remember what you study much better. After you have answered the study questions, check your answers with those given at the end of the lesson. Then correct those you did not answer correctly. The answers are not given in the usual numerical order so that you will not accidentally see the answer to the next question.

These study questions are very important. They will help you to remember the main ideas presented in the lesson and to apply the principles you have learned.

How to Answer Questions

There are different kinds of study questions and self-test questions in this study guide. Below are samples of several types and how to answer them. Specific instructions will be given for other types of questions that may occur.

A *MULTIPLE-CHOICE* question or item asks you to choose an answer from the ones that are given.

- 1 The Bible has a total of
 a) 100 books.
 b) 66 books.
 c) 27 books.

The correct answer is *b) 66 books*. In your study guide, make a circle around *b)* as shown here:

- 1 The Bible has a total of a
 a) 100 books.
 b) 66 books.
 c) 27 books.

(For some multiple-choice items, more than one answer will be correct. In that case, you would circle the letter in front of each correct answer.)

A *TRUE-FALSE* question or item asks you to choose which of several statements are TRUE.

Example

- 2 Which statements below are TRUE?
 a The Bible has a total of 120 books.
 b The Bible is a message for believers today.
 c All of the Bible authors wrote in the Hebrew language.
 d The Holy Spirit inspired the writers of the Bible.

Statements b and d are true. You would make a circle around these two letters to show your choices, as you see above.

A *MATCHING* question or item asks you to match things that go together, such as names with descriptions, or Bible books with their authors

Example

3 Write the number for the leader's name in front of each phrase that describes something he did.

- | | | |
|------|----------------------------------|-----------|
| 1. a | Received the Law at Mt. Sinai | 1) Moses |
| 2. b | Led the Israelites across Jordan | 2) Joshua |
| 2. c | Marched around Jericho | |
| 1. d | Lived in Pharaoh's court | |

Phrases a and d refer to Moses, and phrases b and c refer to Joshua. You would write 1 beside a and d, and 2 beside b and c, as you see above.
